

Si Morf

I Simpósio de Morfologia Comparada de Vertebrados

I SiMorf

Tips to get the most out of the event

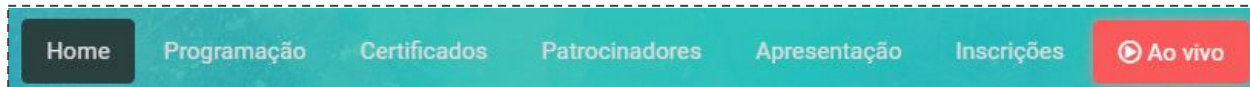

Important information and observations

- ❑ Make sure to log in to your restricted area with your email and password on the Galoá platform.
- ❑ Although Zoom can be accessed via browsers, we recommend that you install the app on your computer and / or mobile phone as it will allow interactions, such as Chats, Q&A, Simultaneous Translation and Polls depending on your device.

It is also important to leave it open a few minutes before activities to speed up access .

- ❑ When an activity is taking place, the link to the respective Zoom room will be available and you can access it by clicking on “Live” in the top menu.

Programação

Click to view the program

Before entering the activities:

- Leave your computer plugged in!
- Connect the ethernet cable, if possible.
- Mute notifications and your electronic devices.
 - Keep a glass of water close by!
- Use external microphone, if you want to ask by voice.

Collaborative Playlist

To set the tone and animate everyone during our event, we have prepared a collaborative playlist of the songs that will be played during the activities, and to represent all of Latin America we want your contribution, open on Spotify and add your favorite songs to our collaborative playlist:

Increase your Network

Even though we are socially distant, we at Galoá prepare ways for you to meet and interact with other SiMorf 2020 attendees. Confirm your participation in the event on LinkedIn and start interacting with other professionals in the field:

Presentations of Scientific Papers

We remember that some presentations are now available for you to create topics and send your questions, suggestions and considerations to authors who did a magnificent work of preparation of explanatory videos so that they can discuss, meet new research and interact with the latest advances in Comparative Morphology.

Useful Tips

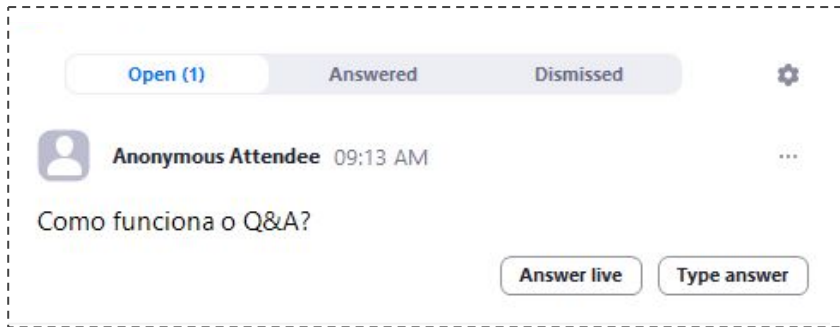

- For better **stability** and **quality** of viewing the videos, if possible, use the **network cable**.
- If you are using a **notebook**, remember to leave it **plugged in** to the outlet to avoid a power outage during presentations.
- If possible, have an **alternative device**, for example cell phone prepared to watch if your connection fails or your main power.
- Use the **Q&A** to ask questions of speakers.
- Try to enter the room a few minutes beforehand so that you don't miss part of the lectures.
- Choose a calm and comfortable place to interact with the researchers and enjoy all the content.

Note: Recordings of the event's activities will be available the following day only for pre-recorded sessions in the original language, and later when we finish editing the translations, all recordings in their respective languages will be available and you will be notified.

ZOOM FEATURES

Q&A → It is the feature intended only for questions and answers., The speaker can choose to answer by voice or text and you can vote on the questions you find most interesting and complement them if you wish.

Chat → Please use the chat to send congratulations and interact with each other. You also can “raise a hand” if you want to make a question by voice :)

We work hard to prepare I SIMORF for you, and we are very proud of the result!

Very renowned speakers, quality and cutting edge content, everything was done with great care for you <3

Now it's your turn, collaborate with our playlist, network with other professionals on our linkedin and interact with speakers and panelists in discussions.

Enjoy everything I SiMorf has to offer for you!

Galoá Team ❤️
